

Verslag Route 2 Brussel

“The visit of the Brussels textiles sorting center of Les Petits Riens gathered 30 people, coming from diverse horizons (Spain, Canada, Turkey,...). After a short introduction of the Brussels’s policy on textiles and Les Petits Riens’ activities, participants had the opportunity to discover how Les Petits Riens is processing more than 6.5 tons of textiles per year. After the visit, the director of Social Economy at Les Petits Riens joined the visitors for a really interesting and opened Q/R session. It is with lots of concrete information and new contacts that the group went back to the Square for the rest of the conferences. “
